Project Report

Instructions:

1. Make a single PDF file for the whole group with the following (mandatory) sections: Abstract, Introduction, Methodology, Results, Conclusion, References, Code. Other sections like list of figures, abbreviations, etc, are optional.
2. The code should have explanatory comments, without which it wouldn't be eligible for any marks.
3. The introduction should be properly referenced.
4. Any plagiarism, if detected, would be heavily penalized.
5. Abstract should be 500-1000 words explaining what you achieved, motivation, similar technology, future scope, etc.
6. If there's any confusion about the format, the .tex/PDF format given here might be used (not mandatory), with only the necessary sections:
